**Re: BTNL Self-Certification Pursuant to CFTC Regulation 40.2(a)
Certification - Listing of Bitcoin Cash US Dollar Unit Perpetual
Futures Contract**

Dear Mr. Kirkpatrick,

Bitnomial Exchange, LLC (“BTNL” or the “Exchange”) hereby submits for self-certification to the Commodity Futures Trading Commission (“CFTC” or the “Commission”) under Commission regulation 40.2(a) its plan to list Bitcoin Cash US Dollar Unit Perpetual Futures (“PBCHUS”) contracts to be offered for trading on BTNL for an intended trade date on or after May 18, 2026.

Contract Description

The PBCHUS contract is a cash-settled, margined perpetual futures contract referenced to the **CF Bitcoin Cash Mid-Price Spot Rate** published by CF Benchmarks (methodology: CF Mid-Price Spot Rates Methodology Guide). The contract size is 1 BCH (Bitcoin Cash). Daily and final settlement prices are calculated under BTNL Rule 509 using the methodology described in Digital Asset Perpetual Pricing, with the Implied Spot Price fixed to the CF Bitcoin Cash Mid-Price Spot Rate. Attached Exchange Rule “Bitcoin Cash US Dollar Unit Perpetual Futures Contract” details the product specifications.

Bitcoin Cash (BCH) Market Overview

Bitcoin Cash is a decentralized cryptocurrency that was created to enhance Bitcoin’s transaction speed and affordability. It features larger block sizes, allowing for greater throughput and lower fees. Bitcoin Cash is widely used as a digital cash system, supporting peer-to-peer payments and merchant adoption. The BCH community emphasizes usability, fast settlement times, and accessibility, making it a practical option for day-to-day transactions.

Governance: Bitcoin Cash follows an off-chain governance model, with decisions made through community discussions and consensus among developers and miners.

Consensus Mechanism: Employs Proof-of-Work (PoW), similar to Bitcoin, relying on miners to validate transactions and secure the network.

Concentration of Ownership: Ownership distribution is similar to Bitcoin, with notable holders including early adopters and institutional investors.

Core Principle Compliance

BTNL has determined that its rules related to the listing of PBCHUS contracts comply with the requirements of the Commodity Exchange Act and the rules and regulations promulgated by the Commission thereunder. BTNL has reviewed the DCM Core Principles and related guidance and determined that the listing of PBCHUS contracts impact the following Core Principles:

Core Principle 2 - Compliance with Rules:

Trading of PBCHUS contracts is subject to the Business Conduct and Trading Practice Rules found in Chapter 4 of the BTNL Rulebook including Rule 403 which forbids pre-arranged, pre-negotiated non-competitive trades. Trading in these products will also be subject to Market Operations and Discipline and Enforcement Rules found in Chapters 5 and 6, respectively.

Core Principle 3 - Contracts Not Readily Subject to Manipulation:

Multiple domestic and foreign markets trade the underlying BCH product, making manipulation unlikely. Additionally, PBCHUS contracts are not readily subject to manipulation because they are subject to position limits and the daily and final settlement prices are determined by reference to the CF Bitcoin Cash Mid-Price Spot Rate published by CF Benchmarks, the most widely trusted and referenced digital asset benchmark authority globally. Daily and Final settlement will be determined in accordance with BTNL Rule 509.

Core Principle 4 - Prevention of Market Disruption:

Trading of PBCHUS contracts is subject to prohibitions of market disruption under Chapters 4, 5, and 6 relating to Business Conduct and Trading Practices, Market Operations, and Discipline and Enforcement, respectively. All trading at BTNL Exchange is subject to market surveillance and a robust disciplinary framework.

Core Principle 5 - Position Limits or Accountability:

Trading of PBCHUS contracts is subject to position limits set forth in the product specifications. The position limits are consistent with Commission guidance. Position limits may be adjusted based on market needs.

Core Principle 7 - Availability of General Information:

Prior to the launch of trading of PBCHUS contracts, product terms and conditions will be available on the BTNL website.

Core Principle 8 - Daily Publication of Trading Information:

The Exchange will publish PBCHUS trading volumes, open interest levels, and price information on its website and through quote vendors.

Core Principle 9 - Execution of Transactions:

Execution of all PBCHUS contracts will take place on the BTNL electronic trading platform. Electronic execution provides competitive and transparent transactions. All PBCHUS contracts will be cleared by Bitnomial Clearinghouse, LLC (“BNCH”), a CFTC-registered derivatives clearing organisation (“DCO”), subject to Commission rules and oversight.

Core Principle 10 - Trade Information:

All requisite trade information will be recorded and stored in the audit trail and will be surveilled and monitored in accordance with BTNL Rules.

Core Principle 11 - Financial Integrity of Transactions:

All PBCHUS contracts will be cleared by BNCH, a CFTC-registered DCO, subject to Commission rules and oversight.

Core Principle 12 - Protection of Markets and Market Participants:

BTNL Rules have set forth numerous requirements and protections to prevent intermediaries from disadvantaging customers.

Core Principle 13 - Disciplinary Procedures:

All PBCHUS contracts are subject to the protections provided by Chapter 6 of the BTNL Rulebook. Chapter 6 describes the disciplinary procedures of the Exchange that authorize the Exchange to discipline, suspend, or expel Participants that violate Exchange Rules.

Core Principle 14 - Dispute Resolution:

Disputes arising from trading of PBCHUS contracts must be arbitrated in accordance with BTNL Rules found in Chapter 7. All disputes, controversies or claims between or among themselves that relate to or arise out of any contract or otherwise arise out of one or more transactions made or to be made on the Exchange or subject to the Rules and are based upon facts and circumstances that occurred at a time when the parties were Participants or Customers.

Certification

The Exchange has spoken with Clearing Members and market participants who support the decision to launch Bitcoin Cash US Dollar Unit Perpetual Futures contracts. The Exchange is not aware of any substantive opposing views to the PBCHUS contracts. The Exchange certifies that the PBCHUS contracts and related rules certified herein comply with the Commodity Exchange Act and the rules and regulations promulgated thereunder.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at: <https://bitnomial.com/exchange/regulatory>

If you have any questions or require further information, please contact the undersigned at james.walsh@bitnomial.com.

Sincerely, /s/
