Re: BTNL 26-103 Self-Certification Pursuant to CFTC Regulation 40.2(a) Certification - Listing of Shiba Inu US Dollar Kilo Perpetual Futures Contract

Dear Mr. Kirkpatrick,

Bitnomial Exchange, LLC (“BTNL” or the “Exchange”) hereby submits for self-certification to the Commodity Futures Trading Commission (“CFTC” or the “Commission”) under Commission regulation 40.2(a) its plan to list Shiba Inu US Dollar Kilo Perpetual Futures (“PSHBUK”) contracts to be offered for trading on BTNL for an intended trade date on or after September 4, 2026.

Contract Description

The PSHBUK contract is a financially-settled, margined perpetual futures contract based on the price of 10,000,000 SHIB (Shiba Inu). Attached Exchange Rule “Shiba Inu US Dollar Kilo Perpetual Futures Contract” details the product specifications.

Shiba Inu (SHIB) Market Overview

Shiba Inu started as a meme token but has evolved into a broader decentralized ecosystem. It includes ShibaSwap, a decentralized exchange, and Shibarium, a Layer 2 scaling solution designed to enhance transaction efficiency. The Shiba Inu community, known as the “Shib Army,” is highly active in promoting new developments and adoption. The SHIB token is complemented by additional ecosystem tokens such as LEASH and BONE, supporting staking, governance, and liquidity provision.

Governance: The Shiba Inu ecosystem is community-driven, with SHIB holders participating in governance through proposals and decentralized decision-making on platforms like ShibaSwap, the project’s native decentralized exchange (DEX).

Consensus Mechanism: As an ERC-20 token, SHIB operates on Ethereum's Proof-of-Stake (PoS) consensus mechanism following the Ethereum Merge. This transition has improved transaction efficiency and reduced environmental impact compared to Proof-of-Work (PoW).

Concentration of Ownership: SHIB's supply started at 1 quadrillion tokens, but a significant portion was burned by Ethereum co-founder Vitalik Buterin, reducing the total available supply. The remaining tokens are distributed among retail investors, exchanges, and liquidity pools.

Liquidity: Shiba Inu has a market capitalization of \$3,059,509,673.00 and a 30-day spot trading volume of \$2,705,289,613.00, ensuring strong liquidity and accessibility across centralized and decentralized exchanges as well as OTC dealers.

Price History

Deliverable Supply Analysis

- **Current Circulation:** 589,239,331,233,282 SHIB
- **Total Supply:** 589,496,238,721,206 SHIB

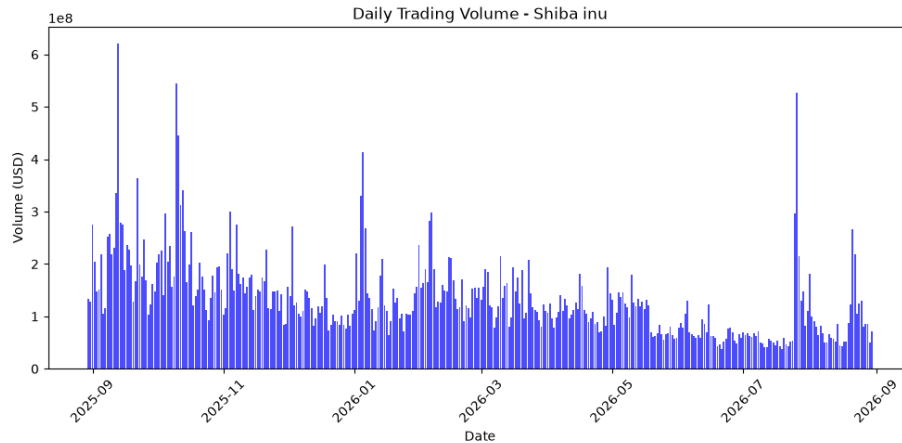

Figure 2: Volume Chart

- **Max Supply:** N/A (none reported)
- **Market Cap:** \$3,059,509,673
- **30 Day Volume:** \$2,705,289,613

Shiba Inu trades continuously across a broad set of centralized exchanges, decentralized venues, and OTC dealers, supporting efficient price discovery for the Contract.

The Exchange proposes a contract month position limit of 2,000 contracts. At the Reportable Contract Size of 10,000,000 SHIB, this represents 20,000,000,000 SHIB, or approximately 0.0034% of circulating supply.

*Supply, market capitalization, and 30-day spot volume as of August 30, 2026.

Core Principle Compliance

BTNL has determined that its rules related to the listing of PSHBUK contracts comply with the requirements of the Commodity Exchange Act and the rules and regulations promulgated by the Commission thereunder. BTNL has reviewed the DCM Core Principles and related guidance and determined that the listing of PSHBUK contracts impact the following Core Principles:

Core Principle 2 - Compliance with Rules:

Trading and delivery of PSHBUK contracts are subject to the Business Conduct and Trading Practice Rules found in Chapter 4 of the BTNL Rulebook including Rule 403 which forbids pre-arranged, pre-negotiated non-competitive trades. Trading and delivery in these products will also be subject to Market

Operations and Discipline and Enforcement Rules found in Chapters 5 and 6, respectively.

Core Principle 3 - Contracts Not Readily Subject to Manipulation:

Multiple domestic and foreign markets trade the underlying SHIB product, making manipulation unlikely. Additionally, Trading and delivery of PSHBUK contracts are not readily subject to manipulation because they are subject to position limits. Daily and Final settlement will be determined in accordance with BTNL Rule 509.

Core Principle 4 - Prevention of Market Disruption:

Trading and delivery of PSHBUK contracts are subject to prohibitions of market disruption under Chapters 4, 5, and 6 relating to Business Conduct and Trading Practices, Market Operations, and Discipline and Enforcement, respectively. All trading at BTNL Exchange is subject to market surveillance and a robust disciplinary framework.

Core Principle 5 - Position Limits or Accountability:

Trading and delivery of PSHBUK contracts are subject to position limits set forth in the product specifications. The position limits are consistent with Commission guidance. Position limits may be adjusted based on market needs.

Core Principle 7 - Availability of General Information:

Prior to the launch of trading of PSHBUK contracts, product terms and conditions will be available on the BTNL website. Information on delivery of PSHBUK contracts will be made available on the BTNL website.

Core Principle 8 - Daily Publication of Trading Information:

The Exchange will publish PSHBUK trading volumes, open interest levels, and price information on its website and through quote vendors.

Core Principle 9 - Execution of Transactions:

Execution of all PSHBUK contracts will take place on the BTNL electronic trading platform. Electronic execution provides competitive and transparent transactions. All PSHBUK contracts will be cleared by Bitnomial Clearinghouse, LLC (“BNCH”), a CFTC-registered derivatives clearing organisation (“DCO”), subject to Commission rules and oversight.

Core Principle 10 - Trade Information:

All requisite trade information will be recorded and stored in the audit trail and will be surveilled and monitored in accordance with BTNL Rules.

Core Principle 11 - Financial Integrity of Transactions:

All PSHBUK contracts will be cleared by BNCH, a CFTC-registered DCO, subject to Commission rules and oversight.

Core Principle 12 - Protection of Markets and Market Participants:

BTNL Rules have set forth numerous requirements and protections to prevent intermediaries from disadvantaging customers.

Core Principle 13 - Disciplinary Procedures:

All PSHBUK contracts are subject to the protections provided by Chapter 6 of the BTNL Rulebook. Chapter 6 describes the disciplinary procedures of the Exchange that authorize the Exchange to discipline, suspend, or expel Participants that violate Exchange Rules.

Core Principle 14 - Dispute Resolution:

Disputes arising from trading of PSHBUK contracts must be arbitrated in accordance with BTNL Rules found in Chapter 7. All disputes, controversies or claims between or among themselves that relate to or arise out of any contract or otherwise arise out of one or more transactions made or to be made on the Exchange or subject to the Rules and are based upon facts and circumstances that occurred at a time when the parties were Participants or Customers.

Certification

The Exchange has spoken with Clearing Members and market participants who support the decision to launch Shiba Inu US Dollar Kilo Perpetual Futures contracts. The Exchange is not aware of any substantive opposing views to the PSHBUK contracts. The Exchange certifies that the PSHBUK contracts and related rules certified herein comply with the Commodity Exchange Act and the rules and regulations promulgated thereunder.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at: <https://bitnomial.com/exchange/regulatory>

If you have any questions or require further information, please contact the undersigned at james.walsh@bitnomial.com.

Sincerely, /s/

James A. Walsh
