8. **Clearing.** All matched trades generated by the Exchange after the application of trade risk limits give rise to binding Transactions between the applicable Participants, which will be automatically submitted to the Clearinghouse for registration and novation, as described in Chapter 8 of these Rules. The Exchange reserves the right to cancel erroneous trades submitted to the Clearinghouse in accordance with Rule 508.
9. **Trading Information.** The Exchange shall make public daily information on settlement prices, volume, open interest, and opening and closing ranges for actively traded contracts on the contract market. Trading information will be published on the Exchange Website at the end of the day.
